

MAHMOUD AL AGHA

Frontend Developer

ABOUT ME

I am a passionate Frontend Developer specializing in building modern, responsive, and high-performance web applications. I focus on creating clean, intuitive user interfaces and delivering smooth, engaging user experiences.

I have solid experience in developing scalable and maintainable front-end architectures using React and TypeScript, with strong attention to performance, accessibility, and best practices. I enjoy turning complex ideas into elegant digital solutions and continuously improving my skills by exploring new tools and technologies in the front-end ecosystem.
